

VaultBridge Group — About Us

VaultBridge Group is a privately operated custody and research entity dedicated to building advanced asset coordination infrastructures for institutional and pre-vetted partners. Our mission is to bridge traditional financial custody standards with next-generation blockchain technologies through intelligent multi-signature frameworks and autonomous fund allocation systems.

Group Structure

VaultBridge Group operates through its subsidiary Solveniq Technologies AG, based in Zug, Switzerland. Solveniq serves as the Group's dedicated R&D; branch, focusing on AI-based fund management, cryptographic key infrastructure, and secure multi-signature custody architecture.

Core Focus

- Multi-Signature Custody and Transaction Coordination
- AI-Driven Fund Allocation Systems
- Cross-Network Risk & Liquidity Management
- Institutional-Grade Custody Solutions for Private Clients
